PROFILE

I am a Computer Science graduate of Carleton University, based in Ottawa, Ontario. Feel free to look at my projects on my Github page @ Dimeji-code

PROJECTS

SKILLS

Familiar with C++, SQL, HTML, React Native, Javascript, QT Creator, Swift and Python

HTML, CSS - My portfolio (Solo proj.)

-Detailed briefing of my projects both solo and group. Completed using bootstrap, html and css.

https://dimeji-code.github.io/dimejisitu/

HTML, CSS, JS, Bootstrap - Genuine (Solo proj.)

-Website that uses a generated form to create a profile of a described person. This in turn is used to suggest gifts for the recipient.

https://dimeji-code.github.io/Genuine/

QT Creator - Electrotherapy simulation

-Worked in a group with two others

-Built a simulation of a therapy treatment used for different ailments. The simulation renders different intensities and time limits per treatment.

- I created the UI and created the base code that laid the foundation for the project.

Xcode (Swift) - Quote Tag (Trivia game, Solo proj.)

-Player matches the quote of a particular franchise to a character

-The multiplayer method consists of a split screen where the users interactively compete for the right to answer a question.

Processing- City 2

- My first group project; game

- Main character launches projectiles (bullets) to survive.

React Native - ODDIO (Solo proj.)

- Oddio is an e-commerce store for audio hardware.

- Upon completion, it will allow users to purchase and gift items to people.

- The UI is sophisticated and pleasing and my most advanced yet.

EDUCATION
Carleton University — B.Sc (Computer Science),
Sept 2015- Feb 2021.

ADDITIONAL CERTIFICATION
Completed React Native course - The Practical Guide [2021 Edition] on Udemy by Maximilian Schwarzmuller.
